

April Meeting

April 14th, 2016 | Eli's on Whitney

2392 Whitney Ave, Hamden, CT 06518

The New Haven Section of the ACS is pleased to present
Christa Molé of Quinnipiac University

A Study of Hydrophobic versus Hydrophilic Components
of Molecules in Acyclic Imide Preparation from C₃ to C₁₀

Cost		Events	
Students	\$10	6:00 - 6:45	Networking
Retired ACS members	\$15	6:45 - 7:45	Dinner
Members	\$20	7:45 - 9:00	Talk
Non-members	\$25		

Christa is a Biochemistry Major and Sociology Minor. Christa worked at an internship at Lab Synergy in Goshen, New York where she was able to travel to Germany. In Germany she worked with the companies Fritsch, Gerhardt and SI Analytics, three analytical chemistry equipment suppliers that focus on sample preparation and analysis. Currently Christa works with Dr. Kent Marshall on her research and is this year's recipient of the New Haven section of the ACS Undergraduate Research Scholarship. After undergraduate graduation, Christa plans to attend graduate school for her Ph.D. in Chemistry. She has currently been accepted to Boston University, Northeastern University, University of Massachusetts Amherst, and University of Connecticut.
