

Meeting of January 24, 1913. 7

On Friday evening of January 24, 1913 the annual meeting of the Section was held in the Graduates' Club when the usual dinner was served to about thirty members.

A motion was made and seconded that the Chair appoint another a committee of three to prepare for nomination a list of candidates for the ensuing year. The Chair appointed Profs. Penning, North, and Van Cady to serve on the committee. The committee proposed Mr. William Buell for President, Mr. B. H. McFarland for vice-president, Mr. W. A. Druehelt for Treasurer, Mr. John Stuel for Councilor and that Mr. G. S. Garrison remain as secretary for the ensuing year.

A motion was made and carried that the report of the committee be accepted and that the secretary be instructed to cast a vote for the nomination election of the proposed officers.

A motion was made and carried that a vote of thanks be given to the retiring officers for their efforts in making the past year such a successful one for the New Haven Section.

After the election, the members proceeded to the Kent Chemical Laboratory where President Arthur D. Little gave a most interesting and instructive lecture upon "Paper Making and the Properties of Paper". The lecture was supplemented by lantern slides and many samples of paper. He also showed some very fine specimens of watermark paper.

The lecture was open to the public and about eighty in all listened to Mr Little's lecture.

Meeting of Feb. 28, 1913 8

The meeting was held on Friday evening, Feb. 28, 1913, at the Graduates' Club when the usual dinner was served to thirty three. After the dinner, President Buell introduced Dr. Alexander Smith of Columbia University who gave a most interesting talk upon the "Teaching of Chemistry".

Treasurer Unshel's report was submitted and approved by the section.

9

Meeting of April 30, 1913

The usual dinner was served to twenty three members at the Graduates' Club. After the dinner, the section adjourned to the Mason Laboratory where Mr. Bradley Stroughton gave a very interesting lecture upon the "Metallurgy of Iron and Steel", which was illustrated with lantern slides and moving pictures. The lecture was open to the public and the audience numbered about one hundred.

Vice President, Dr. Wm. Farland presided in the absence of President Buell.

A motion was made and carried to extend a vote of thanks to Mr. Stroughton for his excellent lecture. Another motion was made and carried to give a vote of thanks for the use of the lecture room in the Mason Mechanical Laboratory.

Meeting of November 13, 1913. 10

Thirty four members attended the dinner and meeting at the Graduates' Club on Thursday evening, November 13, 1913. Professor Lafayette B. Merrill of the University, gave a very interesting as well as instructive lecture upon "Food Fads". During the lecture, he compared the fads of the fifteenth and sixteenth centuries with those of the present day showing that some of our modern fads had been already tried several hundred years ago.

After the lecture, President Bull asked the members of the section to make an effort to present papers or lectures of interest to the section instead of having as formerly, so many outside speakers. Then he announced that Prof. Bahney had consented to be the speaker at the December meeting.

11

Meeting of December 12, 193.

A dinner and a meeting of the Iron Haven section was held at the Graduates' Club, on Friday evening. After the dinner, Professor L. W. Bahney addressed the section on the "Extraction of Gold from Low Grade Ore". He illustrated the lecture by a series of drawings of the various types of apparatus used in the cyanide process which was of great help in following each operation, the one was put through, after it had left the stamps.

In the absence of the president and vice president secretary G. S. Jamison presided at the meeting. Director was present.
